Dear Utilities, Thank you for participating in our water and sewer rate survey this year. There were over 400 participating utilities from all over the State of Illinois who sent in their data. From small rural systems, subdivisions, medium cities and large metropolitan Cities. Thank you all! Many of the surveys gave complex details about the rate structures and it was a challenge to fit the data into a model that everyone could use, but we managed to input the data into our sheet. Please notify us if you see an error on your rates. This project is supported by the City of Carbondale and the OPTIONS Transitions to Independence Program, Internship Program; an OPTIONS intern completed this project while learning job skills and technical expertise on Excel spreadsheets to gain valuable vocational skills. This year we are proud of Sarah, who has spent the last six months working on this survey. We hope you find the information beneficial!

Thank you, Kimberly Cole Phone 618.457.8613 ext 223 email: kcole@ci.carbondale.il.us
