## Cross Connection Control Survey

In order to protect the water supply from being contaminated, we must conduct a survey every two years to determine if there are any hazardous conditions that could affect our drinking water. This survey is required by the E.P.A. Please complete the survey and return with your next payment or mail to: City of Du Quoin, PO Box 466, Du Quoin

If you do not respond to the survey, a licensed plumber certified by the E.P.A. to conduct cross connection control inspections will visit your premises at YOUR expense to inspect for any violations of the Cross Connection Control Ordinance.

**Please sign your name as confirmation of the person completing this survey. The information provided is an accurate and current description of your water system at this address.**
